The PAC charger offers big power in a small package for single shift charging, all from a standard 120VAC outlet.

ECOTEC PAC

The PAC charger from Ecotec is a high frequency MOSFET design, providing you with a small lightweight charger that you can plug into any 120V wall outlet. Weighing between 3 and 8 pounds, the charger can be mounted practically anywhere.

PAC battery chargers use modern switching technology. The auto start/stop, intelligent micro controller extends the life of the battery by monitoring the charging process.

Two Power Levels
The PAC chargers are available in two different power levels, 800W and 1300W. Each power level is available in 3 DC voltage ratings.

Fan Cooled
With such a high power density, adequate cooling is essential to proper operation. The super quiet fan in the PAC charger operates at variable speeds depending on the load which minimizes ambient sound levels.

Multiple Settings
Each charger can very easily be set for a variety of battery sizes and types by simply setting the trim screw on the front of the charger.

PFC
The charger has a power factor correction circuit that ensures that the chargers is running at the highest power factor possible and provides the lowest input current.

Small and Lightweight
The PAC 800 weighs in at 3.3 pounds and is 8.5”D x 4.25”W x 3”H
The PAC 1300 weighs in at 7.5 pounds and is 9.75”D x 6.5”W x 3”H

Warranty
The PAC chargers are warranted for one year from the date of purchase.

Applications
The PAC chargers can be used in a variety of light duty applications where you have 12 hours or more to charge the battery. Equipment such as pallet jacks, aerial work platforms, golf carts, personnel carriers, floor cleaning equipment, and more, can all be charged with the PAC. There is an optional protection package that allows the PAC charger to be mounted to the equipment.
Specifications

Power Factor .99  
Efficiency >.85%  
Line Regulation 0.01%  
Load Regulation 0.2V  
Output ripple <30mV rms  
EMC-standard EN55022B  
Construction IP20  

Weight  
PAC 800 3.3 lbs  
PAC 1300 7.5 lbs  

Dimensions  
PAC 800 8.50"D x 4.25"W x 3"H  
PAC 1300 9.75"D x 6.50"W x 3"H  

Cooling temperature controlled fan  
Mounting wall, bench, on-board (with optional mounting kit)  
Standards UL and cUL 1564
